MANAGEMENT  
TO  
INVOICE MONITORING

**Accelerate Procure to Pay Apps** give you all the means to put your spend under control. From the creation of your products and services catalogs to the management of the incoming invoices from your vendors, simplify and automate each step of the procurement process with Accelerate:

- Create your internal "Amazon-like" Webshop by broadcasting catalogs imported by your suppliers or by giving access to vendors online catalogs (punch-out catalogs).
- Collect, process, and approve purchase requisitions from anyone in your company based on web catalogs or easy-to-use free forms.
- Create and follow purchase orders in close collaboration with the internal requesters and your vendors.
- Manage delivery of goods, check invoices, and proceed with payment.
- Check contract compliance, follow budget consumption, analyze payments, monitor global spending and much more thanks to the advanced BI reports.
