OUR SRM APPS

Onboarding

With Accelerate Onboarding you can outsource the effort of recruiting new suppliers to the suppliers themselves. Thanks to an open and customisable web portal, potential suppliers will work more collaboratively with your Procurement team.

Supplier Enrichment

Your supplier database is the cornerstone of your Supplier Relationship Management solution. Knowing better your strategic suppliers allows you to better manage your relationship on a daily basis, but also guarantees a better mitigation of risks and a better spend coverage.

Risk & Performance

Accelerate Risk & Performance enables you to assess your suppliers' performance and risk level in a collaborative way to increase performance, mitigate risk and insure compliance with your strategic business partners.

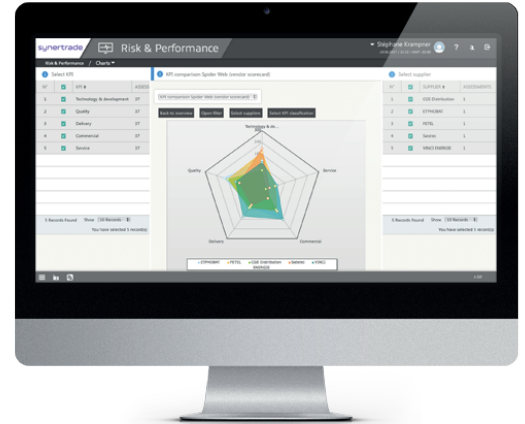

Continuous Improvement

Accelerate Continuous Improvement makes it possible to initiate and track all types of Procurement action plans related to your suppliers. It will help you improve your internal collaboration while managing continual improvement plans with your strategic suppliers.

SRM Intelligence

Accelerate SRM Intelligence gives you a sharper vision of all the data and projects managed using our SRM applications, like the user adoption of the system.

LESS RISK.
