BUDGET MANAGEMENT – CONTROL SPEND, BOOST EFFICIENCY, DRIVE ACCOUNTABILITY

With **Synertrade 5**, gain full visibility and control over your budgets across teams, categories, projects and many more.

Track consumption in real time—including reserved and committed amounts—and empower your teams to make informed purchasing decisions that align with your financial strategy.

Customize budget rules and approval workflows to reflect your governance model, allowing for **flexible yet compliant** excess handling and full auditability. By connecting budgets directly to the purchasing process, Synertrade helps you **avoid overspending, improve forecast accuracy, and drive financial efficiency** across your organization.

Key Capabilities

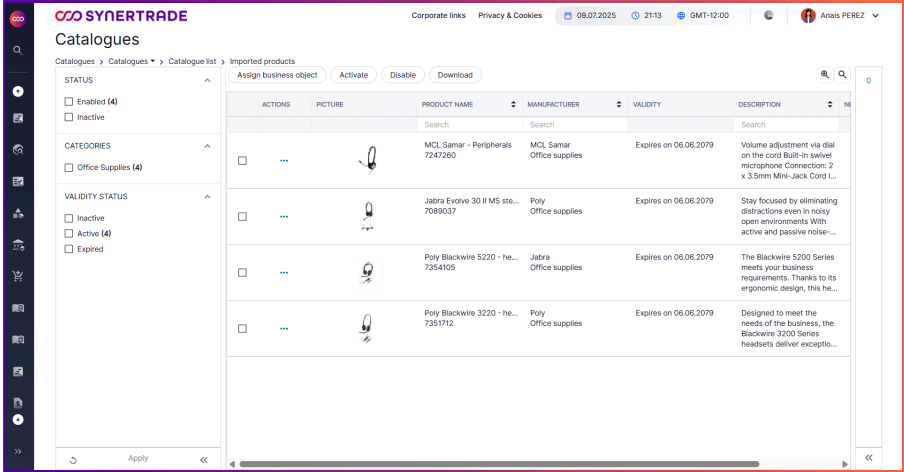

- Real-time budget tracking: reserved vs. consumed amounts
- Granular budget segmentation
- Excess consumption view
- Budget visibility in purchase request creation and approvals
- Configurable rules for budget ownership, thresholds, and compliance

CATALOGUE MANAGEMENT – GIVE YOUR TEAMS EASY ACCESS TO THE RIGHT PRODUCTS, AT THE RIGHT PRICE, FROM THE RIGHT SUPPLIERS.

With **Synertrade 5**, ensure procurement consistency and compliance by making pre-approved products and services available to your organization through centralized catalogs. Reduce Maverick spend, improve user experience, and streamline the purchasing process with easy-to-navigate internal and punch-out catalogs tailored to your business needs.

Create catalogs directly from RFx processes and keep them up to date with supplier-led revisions and version control.

Empower buyers with supplier performance insights embedded in the catalog interface to support smarter and more reliable purchasing decisions.

Key Capabilities

- Support for internal and punch-out catalogs to cover a wide range of purchasing needs
- Catalog generation from RFx processes
- Integration of supplier performance scores
- Pricing update via workflows
- Versioning control
- Link to contract with catalog consumption tracking

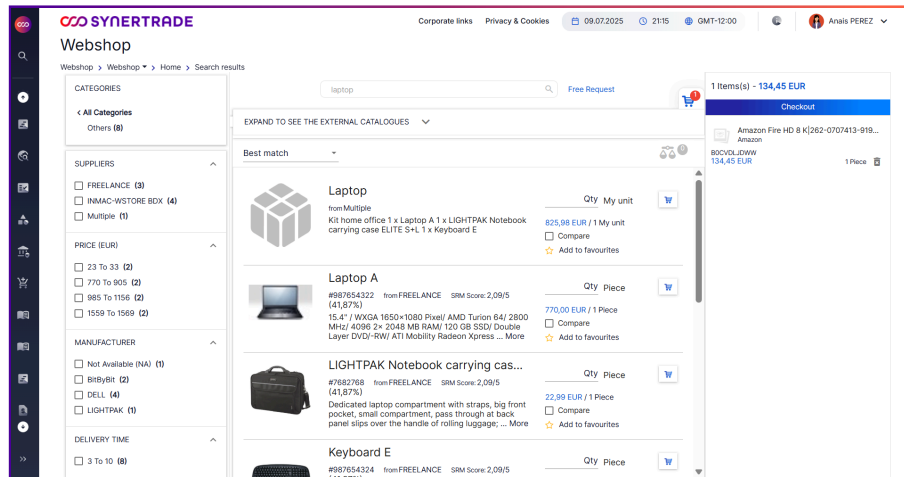

PROCUREMENT SHOPPING EXPERIENCE – DIGITIZE YOUR ENTIRE PURCHASING PROCESS — FROM REQUEST TO RECEIPT— FOR GREATER EFFICIENCY, AGILITY, AND COMPLIANCE

With Synertrade 5, boost procurement performance by providing your organization with a fully digital, easy-to-use purchasing experience.

From intuitive webshop requests to order confirmation and goods reception, every step is optimized to drive business adoption, supplier collaboration, and risk-aware decisions.

Empower buyers with real-time supplier risk alerts during purchase creation, and ensure full traceability with automated workflows and audit trails.

Enable your teams to give and receive continuous feedback through delivery confirmations, returns, and performance reviews—strengthening supplier relationships and increasing procurement value.

Key Capabilities

- Ecommerce experience
- Real-time supplier risk alerts
- Online collaboration on order confirmations and updates
- Delivery feedback and rating
- Online change order management
- Full traceability and audit trail
- Automated workflows, order generation and deliveries

INVOICING - AUTOMATE INVOICE VALIDATION, REDUCE ERRORS, AND ACCELERATE APPROVALS — ALL IN ONE PLACE.

With Synertrade 5, simplify and accelerate your invoicing process through a centralized, digital repository.

Automate 2- and 3-way matching to drastically **reduce errors**, ensure **policy compliance**, and handle exceptions with ease.

Empower suppliers with secure access for faster collaboration, while reducing processing time and manual workload. With full traceability and real-time validation, you gain **better control**, **improved accuracy**, and **faster cycle times** across your accounts payable process.
