SPEND ANALYTICS - UNIFY YOUR SPEND DATA TO REVEAL ACTIONABLE INSIGHTS AND DRIVE SMARTER DECISIONS.

With Synertrade 5, get a 360° view of your **entire spend**—across systems, entities, and geographies—in one powerful, intuitive dashboard. Break data silos to surface **savings opportunities**, identify consolidation levers, and make informed decisions that directly impact your bottom line.

Whether you're seeking **economies of scale**, **supplier diversification**, or **spend rationalization**, Synertrade empowers your teams with real-time visibility to act with confidence and agility.

Key Capabilities

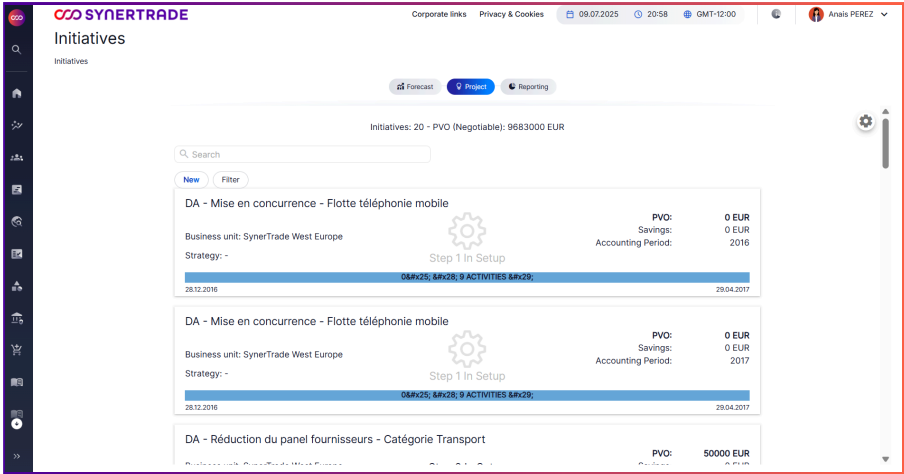

- Unified dashboard aggregating spend
- Automated spend classification
- Identification of savings opportunities
- Customizable views by category, region, business unit, or supplier

PROCUREMENT PLANNING – ALIGN STRATEGY WITH EXECUTION PLAN ACROSS YOUR ORGANIZATION

With Synertrade 5 Procurement Planning, bring your procurement teams together around shared targets by aligning budget forecasts, sourcing initiatives, and execution timelines.

Ensure that strategic plans are cascaded effectively across your organization, so every buyer is working towards the same cost, compliance, and efficiency objectives.

Track progress in real time, automate initiative approvals, and ensure sourcing events stay aligned with your policies. By turning planning into a collaborative, data-driven process, you gain control, transparency, and agility.

Key Capabilities

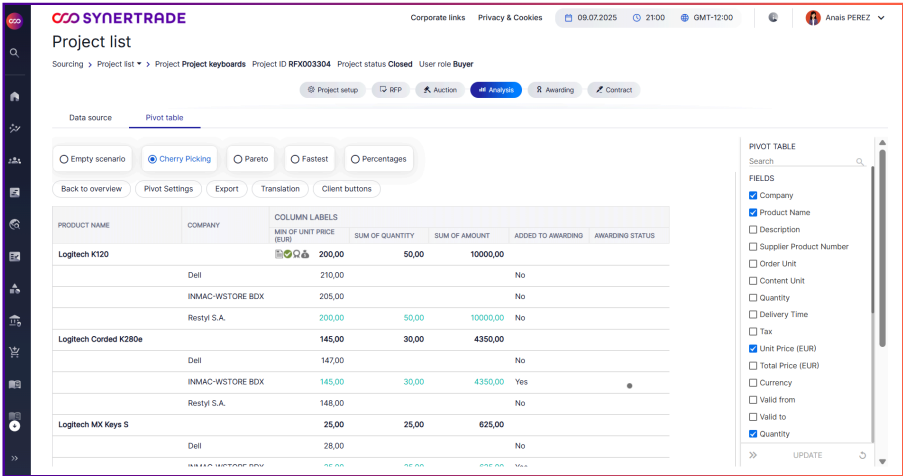

- Centralized planning of procurement initiatives
- Real-time tracking of sourcing schedules, milestones, and outcomes
- Automated approval workflows
- Direct linkage between planning items and sourcing events (RFx)

RFX MANAGEMENT – RUN SMARTER, FASTER SOURCING PROJECTS WHILE REDUCING RISK AND BOOSTING COLLABORATION

With **Synertrade 5**, manage every sourcing event—from simple RFQs to complex RFX processes—with **greater speed, control, and transparency**. Use flexible templates to launch end-to-end RFX projects, integrating internal requirements, supplier engagement, risk monitoring, and follow-up actions in a single workspace.

Whether you're collecting internal needs launching RFPs, managing supplier responses, or building catalogs, Synertrade helps you **optimize sourcing strategies** while ensuring compliance and auditability.

Collaborate easily across teams and ensure supplier decisions go beyond cost—**factoring in risk, compliance, and performance**.

Key Capabilities

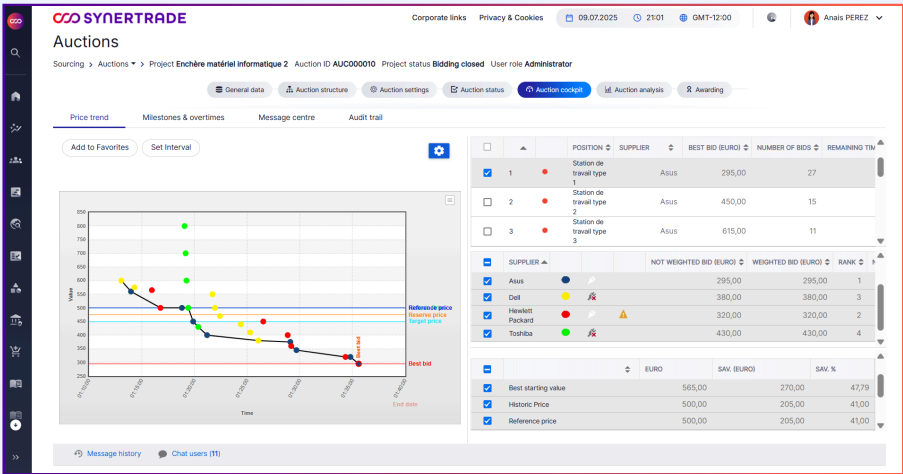

- Flexible RFX templates for RFQ, RFI, RFP, and combined sourcing workflows
- Sourcing guidance
- Real-time risk alerts
- End-to-end traceability
- Internal collaboration solutions / Online forum
- Manual and automatic scoring

AUCTIONS – UNLOCK GREATER VALUE WITH STRATEGIC, TRANSPARENT, AND FLEXIBLE REVERSE AUCTIONS

With Synertrade 5, take your sourcing strategy to the next level by leveraging dynamic reverse auctions tailored to your category and business needs.

Whether integrated into a full RFX process or run as a stand-alone event, Synertrade's auctions help you accelerate negotiations, drive savings, and ensure compliance.

Choose from 8 auction formats and adapt your strategy in real time to get the best outcomes. With built-in supplier risk alerts and full audit trails, you gain full control and transparency, while supporting suppliers through real-time communication tools.

Key Capabilities

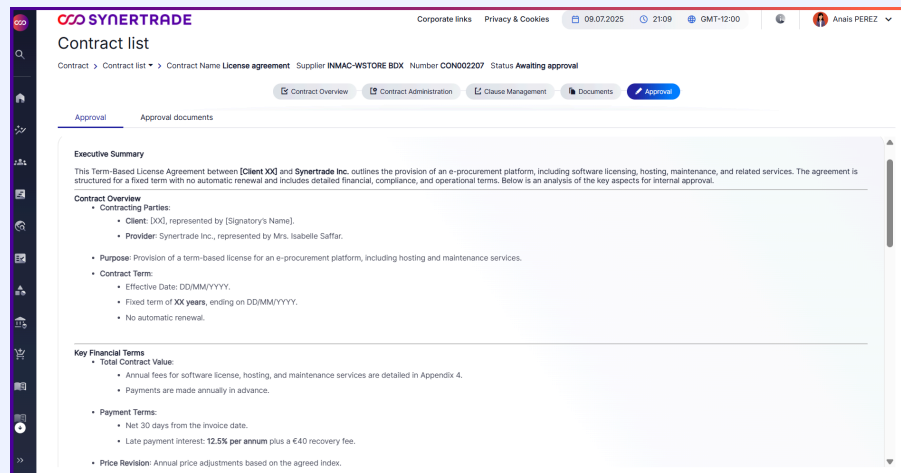

- 8 auction types
- Real-time strategy adjustment
- Supplier risk alerts
- Full audit log

Note : the feature can be run independently or embedded within larger RFX projects

CONTRACT MANAGEMENT – MANAGE THE ENTIRE CONTRACT LIFECYCLE IN ONE SECURE, INTELLIGENT PLATFORM

With Synertrade 5, streamline your entire contract process—from creation to signature and execution—while ensuring full compliance and risk control. Centralize all contracts in a single repository and link them seamlessly to RFx events and purchase activities to enable real-time tracking of consumption, performance, and obligations.

Minimize delays with AI-powered decision support and integrated digital signatures. Rely on a clause library, automated workflows, and full traceability to ensure that every contract aligns with your company's legal and sourcing standards.

Key Capabilities

- End-to-end contract lifecycle management
- Supplier risk alerts embedded in contract workflows
- AI contract analysis and decision-support tools
- DocuSign integration
- Standard clause library
- Full audit log and workflow automation

ALL IN ONE PROCUREMENT PLATFORM

As a result of 25 years of listening to customers, and of constant questioning, **Synertrade 5** platform puts its technology at the center to enhance decision-making, collaboration and impact for procurement departments. This new version, launched in 2025, marks a major inflection point in the user experience.
