SUPPLIER INFORMATION MANAGEMENT –TURN INFORMATION INTO ACTIONABLE INSIGHT

With **Synertrade 5**, simplify your supplier management journey by consolidating all data—internal, external, and supplier-provided—into a **single source of truth**. Free your teams from manual tasks with automated data checks, enriched profiles, and AI-powered extraction.

Accelerate onboarding with smarter forms, spontaneous applications, and third-party data integration.

Get a **360° supplier view**—including spend, contract scope, performance and risk—at a glance.Ensure **top-tier data quality** and real-time updates through automated workflows, certificate alerts, and financial or sustainability data connectors.

By streamlining your supplier information processes, Synertrade 5 empowers you to make faster, safer, and more strategic decisions.

Key Capabilities

- Supplier AI data validation
- Supplier 360 view
- Financial and sustainability Data providers connectors
- Partner bank account validation
- Supplier Customizable forms and workflows

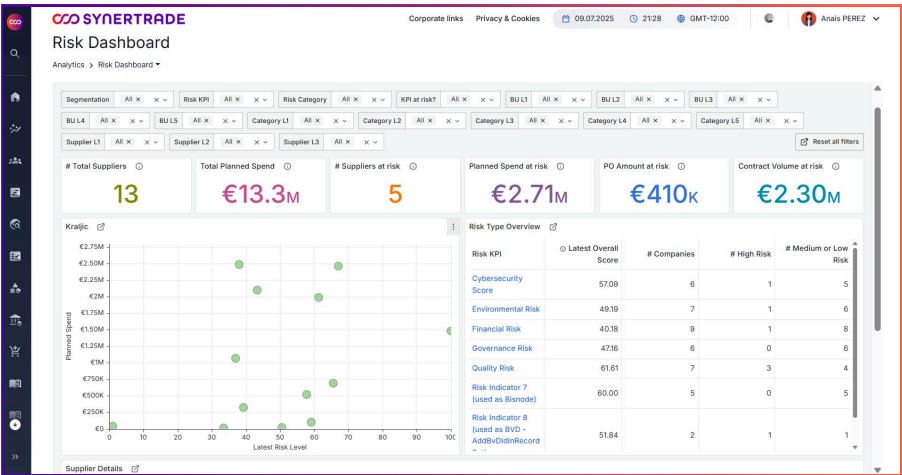

RISK ANALYTICS –TURN RISK INSIGHTS INTO STRATEGIC ACTION TO PROTECT YOUR ORGANISATION

With **Synertrade 5**, empower your procurement team to focus on what truly matters: identifying and mitigating supplier risks that could impact your business.

No more noise—just actionable insights aligned with your strategic priorities. Our Risk Analytics dashboard helps you surface the suppliers with the greatest financial exposure, those involved in key contracts, or operating in sensitive categories.

Monitor risks across sustainability, financial health, cyber threats, and more—while aligning with your organization's KPIs and risk tolerance.

Thanks to automated alerts at key decision points (sourcing, contracting, purchasing), you ensure year-round protection and fast response to any new threat.

Key Capabilities

- Customizable risk indicators and alerts
- Operational risk exposure Identification (open POs and contract amounts linked to at-risk suppliers)
- Sustainability, financial, cyber, etc risk Identification.
- Alerts based on your company's risk tolerance

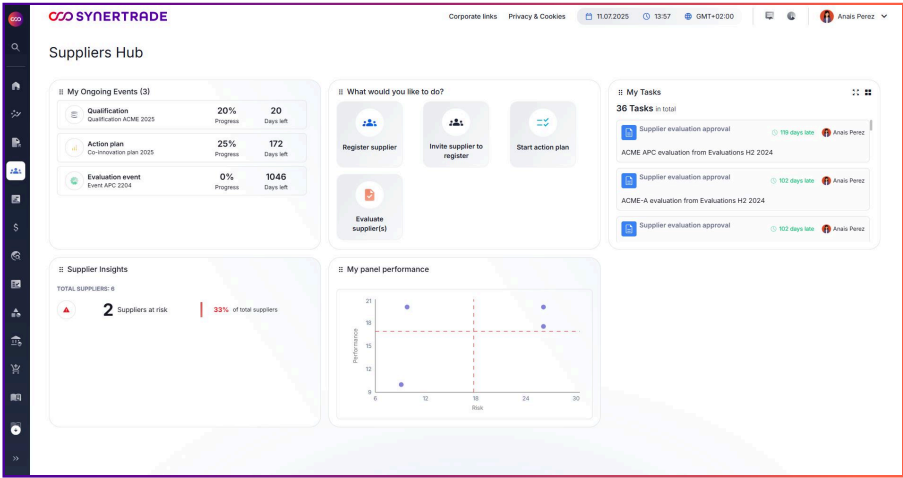

SUPPLIER HUB – CENTRALIZE SUPPLIER ACTIONS TO BOOST PROCUREMENT AGILITY AND MITIGATE RISKS BEFORE THEY ESCALATE

With Synertrade 5 Supplier Hub, your procurement team gains a command centre to manage supplier relationships more proactively and efficiently.

Track all key supplier activities—qualifications, evaluations, action plans, and surveys—from a single intuitive interface. Focus your efforts where it matters most:

- Act quickly on risk or performance gaps
- Prioritize supplier follow-up actions
- Drive continuous improvements with smarter decision-making

When risk or performance falls below expectations, Supplier Hub helps you react faster with clear visibility, smart task prioritization, and actionable insights—all in one place.

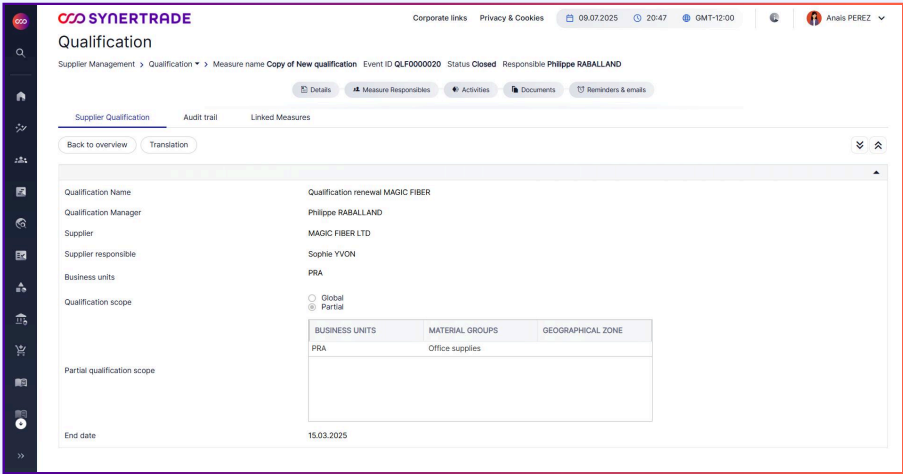

Key Capabilities

- Centralized tracking of supplier activities
- One-click access to supplier-related actions for optimal UX
- Task prioritization for buyers view
- Risk alerts on suppliers under a buyer's responsibility
- Supplier panel view to prioritize risk mitigation candidates

SUPPLIER QUALIFICATIONS – STANDARDIZE, STREAMLINE, AND SCALE SUPPLIER QUALIFICATION TO SECURE RELIABLE PARTNERSHIPS FROM DAY ONE

With Synertrade 5, ensure that every supplier you work with meets the right standards for your business aligned with your policies and segmentation rules. Our qualification solution helps you easily define, manage and monitor qualification processes adapted to supplier risk, category criticality, and geographic scope.

Thanks to automated workflows and customizable templates, you gain visibility and control over your qualification process—saving time while increasing compliance. Whether you're managing local suppliers or global vendors, Synertrade helps you build a stronger, safer supply base.

Key Capabilities

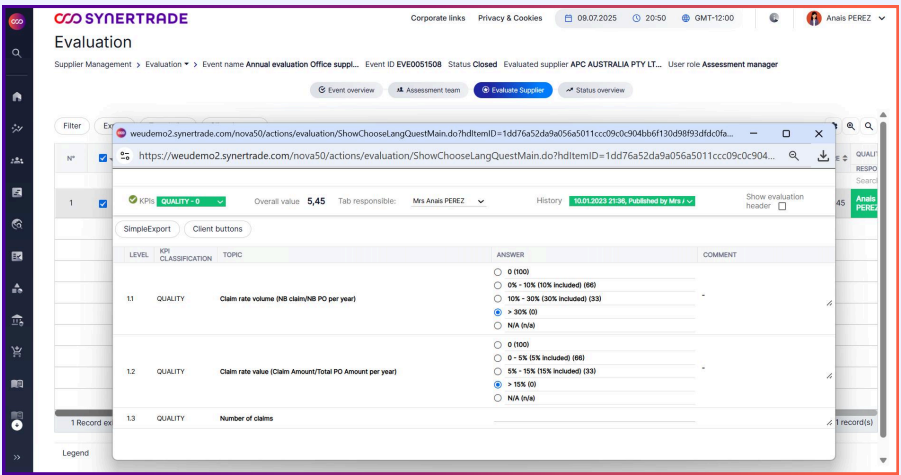

- Customizable qualification templates
- Contextual qualification based on category, business unit, and/or region
- Automated workflows to review, validate, and archive supplier qualifications
- Traceability of qualification decisions

SUPPLIER EVALUATION – ELEVATE SUPPLIER PERFORMANCE THROUGH CONTINUOUS FEEDBACK

With Synertrade 5, take a proactive approach to supplier performance by engaging internal stakeholders across departments—quality, operations, procurement, production—in structured evaluation processes.

Design flexible, tailored questionnaires to reflect your organization's standards, and automate evaluations at key intervals.

When supplier performance falls short, trigger action plans automatically to ensure service continuity and drive improvements over time. By transforming feedback into actionable insights, Synertrade helps you build long-term supplier excellence while reducing manual workload.

Key Capabilities

- Configurable KPIs and evaluation templates
- Automated selection of evaluators, evaluation rounds, and notifications
- Performance reports shared with suppliers as needed
- Auto-triggered action plans
- Cross-departmental collaboration solutions

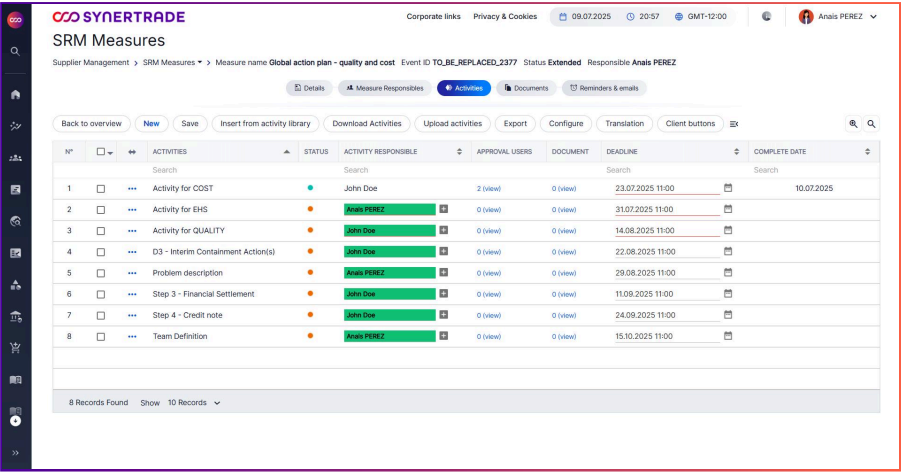

SUPPLIER ACTION PLANS – DRIVE SUPPLIER PERFORMANCE, INNOVATION, AND ALIGNMENT THROUGH STRUCTURED, CO-CREATED ACTION PLANS

With Synertrade 5, take a leading role in strengthening your supplier relationships by turning strategy into action.

Whether you're aiming for performance improvements, compliance corrections, or co-innovation, our platform helps you **plan, track and execute** supplier action plans seamlessly.

Create targeted improvement roadmaps using templates aligned with your objectives. Empower both buyers and suppliers to take timely action, and foster innovation through structured collaboration—all from a centralized workspace.

With clear ownership, deadlines, and collaborative input, you turn supplier engagement into measurable results.

Key Capabilities

- Predefined action plan templates
- Flexible activity library
- Centralized execution tracking
- Support for supplier-driven initiatives and co-innovation

ALL IN ONE PROCUREMENT PLATFORM

As a result of 25 years of listening to customers, and of constant questioning, **Synertrade 5** platform puts its technology at the center to enhance decision-making, collaboration and impact for procurement departments. This new version, launched in 2025, marks a major inflection point in the user experience.
